Client Feedback Guidelines

Your practitioner is currently applying for Practitioner membership of the British Rebirth Society. It would be useful if you would supply written feedback about your sessions, for the attention of our next meeting, giving us your experience of working with them. Below are some guidelines to assist you with this process and to cover the key points. Please feel free to briefly expand on any other aspects you would like to mention and to either fill in this form or write a letter covering these points. Use overleaf if you require more space.

1. How have you benefited from your relationship with your practitioner and from your sessions?

2. Why did you choose Breathwork-Rebirthing and why did you choose your practitioner?

3. Do you have any feedback for your practitioner, which could assist them to have more clarity in their practice?

4. Did you feel that any concept or practice could have been covered more fully?

5. Is there anything else that you would like to say about your practitioner?

Thank you for taking the time to provide this feedback.
